## **1. Dietitians: Alternative Careers**

In BC, dietitians are health care professionals who provide advice and counselling about diet, food and nutrition. You work in a variety of settings including hospitals, extended care facilities, the food and beverage industry, the pharmaceutical industry, educational institutions, sports organizations and government.

You may find that your international training and experience as a dietitian are not immediately accepted in B.C. The skills you have acquired as a dietitian (interest in food and nutrition, ability to work with variety of cultures, strong communication, interpersonal and analytical skills) can be used in these alternative careers:

- food services supervisor
- dietary technician
- food technician
- food demonstrator
- hospital service worker/dietary aide /patient service associate

## **Alternative Careers**

### **Food Services Supervisor [NOC 2021: 62020 / NOC 2016: 6311]**

*Also look for these job titles: catering supervisor, cafeteria supervisor, food assembly supervisor*

You supervise and coordinate the activities of workers who prepare, portion and serve food. You work in hospitals and other health-care facilities, cafeterias, catering companies and other food service businesses.

**Duties include:**

- supervise, coordinate and schedule the activities of staff who prepare, portion and serve food
- estimate and order ingredients and supplies for meal preparation
- may plan menus and determine related food and labour costs
- train staff in job duties and sanitation and safety procedures
- make sure that food and service meet quality control standards

**Requirements:**

- completion of secondary school is usually required
- completion of a community college program in food service administration, hotel and restaurant management or related discipline  
OR
- several years of experience in food preparation or service

**Skills:**

- strong communication skills
- time management skills
- problem-solving skills

**Wages:**

- median hourly rate: \$17.00

Source: WorkBC <https://www.workbc.ca/plan-career/explore-careers>

**Dietary Technician [NOC 2021: 32129 / NOC 2016: 3219]**

*Also look for these job titles: nutrition technician; food technician*

You work in health-care and commercial food service establishments such as hospitals, nursing homes, schools, and cafeterias.

**Duties:**

- help dietitians or nutritionists plan and supervise food service operations
- plan menus and diet for clients under the direction of a dietitian or nutritionist

## Dietitians: Alternative Careers

### *A guide for newcomers to British Columbia*

- help supervise workers who prepare and serve food

<https://www.vpl.ca/digital-library/career-cruising>

**Food Demonstrator [NOC 2021: 65109 / NOC 2016: 6623]**

You show and sell food-related goods or services during demonstrations.

**Duties:**

- arrange sales demonstration appointments
- show, describe and sell goods or services at wholesale, retail and industrial establishments, and at exhibitions, trade shows and private homes

**Requirements:**

- Food Safe Handlers Certificate (<https://www.foodsafety.ca/courses/food-handler-certification-course>)
- Hepatitis A vaccination may be required

**Skills:**

- demonstration or customer service experience (e.g. experience selling a brand product)

- strong interest in food

**Wages:**

- median hourly wage \$15.65

Source: WorkBC

**Hospital Service Worker**

You help keep hospitals running by preparing meals, ordering supplies, moving patients, and doing many other tasks.

*Also referred to as: dietary aide, linen attendant or lab aide or porter*

**Duties:**

- serve meals
- wash and iron sheets and clothing
- lift patients in and out of wheelchairs
- transport patients around hospitals
- order and distribute supplies

**Requirements:**

- high school diploma; most training is on the job

**Skills:**

- energetic and in good physical condition
- responsible, reliable, able to follow instructions
- work well independently and as part of a team

**Wages:**

- between minimum wage and \$25/hour

## 2. Employment Outlook

Dietitian careers are included within the health care industry. A growing and ageing population will require more health services, which will result in an increased demand for workers in this sector. As well, a significant number of workers are set to retire over the next few years increasing demand for new workers.

## 3. Retraining

You may want to consider upgrading your skills to increase your employment options in this field. The following courses may improve your current skills:

#### **BCIT: Associate Certificate in Food Safety**

- Part-time program intended for:
  - employees in the food industry with no formal food science background who wish to upgrade their knowledge
  - foreign-trained food technologists who wish to obtain Canadian certification

<https://www.bcit.ca/programs/food-safety-associate-certificate-part-time-6365acert/>

**BCIT: *Food Technology Diploma***

- 2 year, full-time diploma program  
<https://www.bcit.ca/programs/food-technology/>

**Langara College: *Nutrition and Food Service Management Program***

- This diploma program can be completed fully online, and you have the option of taking support courses on campus
- Students studying full time can complete the diploma in two years  
<https://langara.ca/programs-and-courses/programs/nutrition/index.html>

## **4. Searching for Jobs**

### **B.C. Health Authorities**

Regional services including publicly funded hospitals and residential care facilities  
<https://www2.gov.bc.ca/gov/content/health/about-bc-s-health-care-system/partners/health-authorities/> (select link for each region and then go to 'Careers')

### **B.C. Provincial Health Services Authority Job Postings**

Lists jobs available in specialty institutions such as BC Transplant, Women's Hospital, BC Children's Hospital  
<https://jobs.phsa.ca/>

### **Providence Health Care**
