Carpenters [NOC: 72310] and Cabinetmakers [NOC: 72311]

Carpenters may also be called:

- apprentice carpenter
- carpenter-joiner
- finish carpenter
- journeyman/woman carpenter
- maintenance carpenter
- rough carpenter
- stair builder-carpenter

Cabinetmakers may also be called

- cabinetmaker apprentice
- custom wood furniture maker
- furniture cabinetmaker
- joiner

1. What Would I Do?

As a ***carpenter***, you construct, install, maintain and repair structures and components of structures made of wood, wood substitutes, lightweight steel and other materials.

As a ***cabinetmaker***, you use a variety of woods and laminates to construct and repair wooden cabinets, furniture, fixtures and related products.

As a ***carpenter***, your duties can include:

- read blueprints, sketches and drawings to lay out the project

- measure and cut lengths of wood, wood substitutes, lightweight steel and other materials
- assemble the frames of buildings using nail guns
- build foundations, install floor beams, lay sub-flooring and erect walls and roof systems
- fit and install trim items, such as doors, stairs, moulding and hardware

As a ***cabinetmaker*** your duties can include:

- read drawings and specifications, and prepare patterns and layouts
- operate woodworking machines, such as power saws, jointers, mortisers and shapers, and use hand tools to cut, shape and form parts and components
- trim joints and fit parts together to form a complete unit using glue and clamps and reinforce joints using nails, screws or other fasteners
- sand wooden surfaces and apply veneer, stain or polish to finished products

2. Am I Suited For This Job?

Carpenters and cabinetmakers:

- *are able to work well with their hands*
- *solve math problems quickly and accurately*
- *must be physically fit*
- *must have good hand-eye coordination, and communication skills*

Cabinetmakers also need a good eye for selecting and joining materials and be able to visualize a pleasing finished product

Carpenters may work indoors or outdoors; the environment is often noisy or dirty. You must take appropriate safety precautions when lifting materials, working from heights and working with equipment and tools.

Cabinetmakers work indoors in factories or woodworking shops; these are usually dusty and noisy and expose workers to wood finishing products and glues that may contain dangerous chemicals and fumes.

3. What Are The Wages And Benefits?

In British Columbia, the median annual salary for carpenters is \$57,354 and for cabinetmakers is \$45,883.

This amount will increase if you can find year-round, full-time work. Your wages are affected by location, employer, and the amount of work you can find each year, your level of skill and qualifications. Wages are higher in some areas of the country than in others.

In BC's regions, **carpenters** can expect to make:

Community/Area	Wages (\$/hour)		
	Low	Median	High

5. How Do I Become A Carpenter or Cabinetmaker?

In British Columbia, trade certification for carpenters and cabinetmakers is available, but not mandatory.

Completion of secondary school is usually required and you can find employment as a carpenter or cabinetmaker without formal training. However, most employers prefer to hire applicants who have completed a four year apprenticeship program and gained certification through SkilledTradesBC (<https://skilledtradesbc.ca/>).

Apprenticeship involves both classroom studies and on-the-job training under the supervision of a certified tradesperson, called a journey person.

To obtain a Certificate of Qualification as a carpenter or cabinetmaker, you also write the Interprovincial Exam to qualify for the Interprovincial Standards' Red Seal. With a Red Seal, you can work in this trade anywhere in Canada.

If you have significant work experience in the trade but have never been certified in Canada, you may apply to **challenge** the certification. Being approved to challenge means that if you meet the criteria for your trade, you will not be required to go through the full program. Instead, you are allowed to become certified by writing and passing the final exam(s).

6. How Do I Find A Job?

Where would I work?

Carpenters work in:

- *construction companies*
- *carpentry contractors*
- *maintenance departments of factories, plants*

Cabinetmakers work in:

- *furniture manufacturing or repair companies*
- *construction companies*
- *cabinetmaking contractors*

NOTE: *You can access this database from a Library computer. If you are using a computer from outside the Library, you will need a Vancouver Public Library card to login to this database. After clicking on the database name, you will be asked to enter your library card number and PIN (usually last four digits of your telephone number).*

Networking, Volunteering and Temporary Agencies

Many positions are filled by people who have been recommended by someone they know. Networking, working as a volunteer or registering with a temporary employment agency are good ways of helping you find jobs and meet people in your industry.

Networking and the Hidden Job Market:

When looking for work, be sure to talk to friends, relatives and neighbours. They may know someone who is hiring! Working as a volunteer, attending events, and joining clubs and associations are good ways to gain "Canadian experience." They are also good ways to meet people to learn about the local job market.
