Industry Overview

The telecommunications industry is changing rapidly. The largest growth area is in wireless technology. Competition in this industry is intense, and restructuring and downsizing are common.

Companies will rely more heavily on graduates of colleges and technical institutes who are highly trained in the skills required to do the job. Contract work is common for new graduates. As workers gain experience in this industry they may advance to supervisory positions.

You can learn more about working as a Telecommunications worker in BC from:

- **WorkBC Career Profiles**
[Telecommunications Line and Cable Workers](#)
[Telecommunications Installation and Repair Workers](#)
- **Career Cruising database** (Profile for Telephone Line Installer/Repairer).
 Available from the VPL Digital Library
<https://www.vpl.ca/digital-library/career-cruising/>

Types of Employers

You will look for work with telecommunication carriers and radio and television communications businesses, which are in the information and cultural industries sector because they employ the majority of these workers.

The construction industry is the next largest employer, with the remaining jobs spread among various industries and services.

Salary

In BC, the median annual salary for *Telecommunication Installation and Maintenance workers* is \$61,108 with a median hourly wage of \$29.30. The median annual salary for *Telecommunications Installation and Repair workers* is \$61,671, with a median hourly wage of \$29.57.

Many permanent full time telecommunication workers belong to a labour union. If this is true for you, then your wages and benefits are negotiated by union representatives on your behalf. In addition to a salary, you may also receive benefits such as health and dental coverage, paid vacation and sick days, and contributions to retirement income plans.

Working Hours

As a telecommunication worker, either as a Line and Cable Worker or an Installation and Repair Worker, you will usually work a regular 40 hours per week with some evenings and weekends included. Also, you may be on call 24 hours a day or be called out to deal with emergencies.

2. Skills, Education and Experience

Skills

- Interested in keeping current in technology
- Able to read and use diagrams/drawing
- Detail-oriented
- Physical strength and comfort with heights
- Preferably a driver's licence
- Customer service skills

Education and Experience

Telecommunications Line and Cable Workers

- Completion of secondary school is required.
- Completion of a four-year telecommunications line and cable apprenticeship program or a combination of over three years work experience in the trade and some industry- related or other specialized courses or
- Completion of a two-year college program in electronics is usually required.

Telecommunications Installation and Repair Workers

- Completion of secondary school is required.
- Telephone and switch network installers and repairers require completion of an apprenticeship program ranging from three to four years or a combination of over three years work experience in the trade and some high school, college, or industry related courses.

- Telecommunications equipment technicians usually require completion of a college electrical and electronics program and several months of on-the-job training or completion of a three- or four-year apprenticeship program.

Qualifications

Trade certification for telecommunication technicians is available, but voluntary, in British Columbia

In BC, professional designations are granted by **The Applied Science Technologists & Technicians of British Columbia (ASTTBC)**.

To become certified as an Applied Science Technologist (AScT) or Certified Technician (CTech), telecommunications technologists and technicians must:

- Apply for membership with ASTTBC.
- Have, in addition to academic requirements, a minimum of two years of appropriate level work experience, **one of which must be Canadian experience** at the level of certification being sought (technician or technologist).
 - work experience must be verified by technical references who have knowledge of the applicant's technical ability.
- Pass the Association's Ethics and Professional Practice Examinations.

More information:

- **ASTTBC Basic Requirements and How to Apply**
https://asttbc.org/how_to_apply/

Internationally Trained Telecommunication Professionals

Telecommunication Professionals who meet all the current academic criteria and experience requirements but lack Canadian work experience may apply for a "Provisional Membership" with ASTTBC.

- **ASTTBC "Provisional Membership"**
(AScT [Provisional] and CTech [Provisional])
<https://asttbc.org/registration/itp/certification/>

3. Finding Jobs

You'll find job advertisements in local newspapers, electronic sources, and through professional associations.

Local Newspapers

You can look at the Vancouver Sun & The Province at Vancouver Public Library for free. Check the job postings daily, the careers section in the Vancouver Sun on Wednesdays and Saturdays and in The Province on Sundays.

Online Job Postings

- **Indeed.com**
https://ca.indeed.com/advanced_search
- **WorkBC Job Postings**
<https://www.workbc.ca/search-and-prepare-job/find-jobs#/job-search>
- **Skilled Trades Employment Program (STEP)**
<https://www.stepbc.ca/>
- **Job Bank**
<https://www.jobbank.gc.ca/findajob>

Professional Associations' Career Resources

- **Applied Science Technologists & Technicians of BC TechJobs**
<https://asttbc.org/jobpostings/>
- **Canadian Technical Employment Network (CTEN)**
<https://www.cten.ca/home/index.html>
Online job network for technicians and technology professionals. You must be a member of a provincial technologists & technicians society (ie: ASTTBC) to access the job postings

Identifying the Right Position

When you browse job advertisements, you'll find a wide range of different job titles that are relevant.

For **Telecommunications Line and Cable Workers**, look for these and other related job titles

- Apprentice Lineman/woman – Telecommunications
- Cable Repairer, Telecommunications
- Communication Technician – Construction
- Construction Technician – Cable Television
- Lineman/woman, Telecommunications
- Splicer Technician – Telephone
- Telecommunications Line Installer

For **Telecommunications Installation and Repair Workers**, look for these and other related job titles

- Apprentice Communication Electrician – Switching
- Cellular Telephone Technician
- Communication Technician, Telephone
- Exchange Tester – Telecommunications
- Line and Station Installer, Telephone
- Mobile Radio Installer
- Private Branch Exchange (PBX) Installer
- Switch Network Installer and Repairer
- Telecommunications Equipment Technician

Creating a List of Potential Employers

You can use directories to produce lists of companies in the Lower Mainland or BC. Contact them directly to find out if they're hiring.

- **British Columbia Construction Association Directories**
<https://www.bccassn.com/membership/>
- **Techwest Directory**
<https://www.techdirectorycanada.ca/>
- **Reference Canada**
<https://www.vpl.ca/digital-library/reference-canada>

Click on "Start Search" beside Canadian Businesses, then select the "Advanced Search" button. Select both "Keyword/SIC/NAICS" under Business Type and "City" under Geography. In the top search box enter "telecommunication" and click SEARCH. Select the appropriate headings. Lower down, select the Province, choose the cities, and click the "View Results" button.

NOTE: You can access this database from a Library computer. If you are using a computer from outside the Library, you will need a Vancouver Public Library card to login to this database. After clicking on the database name, you will be asked to enter your library card number and PIN (usually last four digits of your telephone number).

4. Applying for a Job

In Canada, employers usually expect to receive a resume or curriculum vitae and a cover letter that identifies the position you are applying for and summarizes your relevant experience.

Use the library catalogue, <https://vpl.bibliocommons.com/> to find books on writing resumes and cover letters specific to your industry.

To learn about applying for jobs in Canada, use the following guides which are available in print at the Central Library or online at <https://www.vpl.ca/siic/>.

- **Writing Resumes and Cover Letters**
<https://www.vpl.ca/siic/guide/job-search-resources/writing-resumes-and-cover-letters>
- **Getting Canadian Work Experience**
<https://www.vpl.ca/siic/guide/job-search-resources/getting-canadian-work-experience>
- **Networking for Employment**

5. Getting Help from Industry Sources

Industry Associations

Associations for telecommunication workers in BC and Canada provide information and assistance. Registration and fees are usually required for membership.

- **Applied Science Technologists & Technicians of BC (ASTTBC)**
<https://asttbc.org/>
- **Canadian Council of Technicians and Technologists (CCTT)**
<http://www.cctt.ca/>
- **Skilled Trades Employment Program (STEP)**
<https://www.stepbc.ca/>
- **BC Construction Association Integrating Newcomers**
<https://www.bccasn.com/jobs-&-careers/bcca-integrating-newcomers/default>
- **Society of Punjabi Engineers and Technologists of British Columbia**
<https://speatbc.org/>

Industry Journals

Search the Vancouver Public Library catalogue for journals related to your profession. Examples at the Central Library:

- **Network World** / Laurentian Technomedia
Available in print at VPL, Central Library 338.47 N47 CM and online at:
<https://www.networkworld.com/>

**Questions? Please ask the Information Staff in the Central Branch,
Vancouver Public Library or telephone 604-331-3603.**

*Please note that the information in this guide is also available online through the
Skilled Immigrant InfoCentre website at <https://www.vpl.ca/siic>*
