

Reading Buddies Volunteer Application Spring 2025

Reading Buddies is a Vancouver Public Library program that pairs teens aged 13 to 18 with young children who would like to improve their reading. We are looking for role models who can connect with children and help them become engaged with the library and develop a love of reading and learning.

The program includes a training component on the first scheduled session, and will have ongoing support from library staff.

Snacks will be provided, but it is recommended that you bring along a water bottle.
