***May also be called:***

- Pastry Chef / Pastry Maker
- Cake Decorator

### 1. What Would I Do?

Bakers make bread, rolls, muffins, pies, pastries, cakes and cookies in retail and wholesale bakeries and dining establishments. Depending on the size and type of bakery, you may do a wide variety of tasks including:

- make dough for pies, bread and rolls and sweet goods
- prepare batters for muffins, cookies, cakes, icings and frostings according to recipes or special customer orders
- run baking machinery such as high-volume mixing machines, ovens and other equipment to produce large quantities of baked goods
- bake mixed doughs and batters
- frost and decorate cakes or other baked goods

Some bakers make all kinds of baked goods, while others concentrate on just one type, such as bread or pastry.

### 3. What Are The Wages And Benefits?

In British Columbia, the annual median salary is \$30,241. Your wage depends on experience, skill level, type of bakery and region of the province.

In BC's regions, you can expect to make:

Bakers employed in large operations and in-store bakeries may need to join a union. Union leaders negotiate the wages and benefits on your behalf.

Full-time bakers generally get benefits on top of their salaries. Benefits may include paid vacation, sick leave, and dental coverage. Some employers will contribute to a retirement plan.

### 4. What Is The Job Outlook In BC?

The job outlook for bakers is influenced by British Columbia's growing population and strong tourism industry. Consumer tastes are also changing, showing a greater preference for healthy, high-end products and specialty baked goods.

These trends have created a demand for skilled bakers, particularly those with trade certification.

## 5. How Do I Become A Baker?

***Bakers "usually" require:***

- completion of high school
- completion of a three- or four-year apprenticeship program

In some cases on-the-job training may be provided instead of formal education.
